

## NOC COTTON Regulation (English)

1. NOC products made *from* 100% certified organic cotton.  
Blending organic and conventional cotton fibers is not permitted.
2. No less than 60% of fiber content of the products must be certified organic cotton.  
The remaining balance of 40% must be certified natural fiber (wool,silk,hemp,etc) Do ot mix with synthetic fibers, except that socks or underwear may contain a maximum of 15% of elastic synthetic fiber.  
The percentage figures refer to the weight of the fiber content of the final products.
3. Chemical treatment like bleaching, dyeing, printing, shrink-proof, or softening must be prohibited.
4. Minimal usage of chemical additives like wax PVA for manufacturing fabrics is allowed.
5. Usage of chemical parts like padding, lining, embroidery yarn,fasteners must be totally up to 10% of total weight.
6. Raw materials of accessories like cord, elastic cord tape, name tug button have to be made from natural materials as much as possible to concern about environment.
7. Strongly recommend to use organic thread. Even if required to use conventional thread,  
bleached or florescent bleached is not recommended.
8. Stuffing of stuffed toys must be basically 100% organic cotton.  
However if required, maximum 500g/piece of safe synthetic material may contain.

9. Printing ink for T-shirt etc. must be safe material and maximum printing area to be within 10% of total area.
10. Chemical detergent is not permitted to wash fabrics or products.
